

Introducing Stockwell 2.0

Unlocked cutting-edge technology with a new sleek design

Your **smart store** is **equipped** for you!

From lunch on the go to an afternoon pick-me-up. The Stockwell 2.0 inside intelligence learns what products are selling and what's not! Take advantage of its insight and start giving your customers what they want and need.

- An entire, larger side dedicated to refrigerated products in addition to ambient products on the opposite side
- A lighter and easier piece of equipment to move within client locations, half the weight of previous generation
- More merchandising space and support for a variety of product pushers on both refrigerated and ambient sides
- Improved processing power and product recognition accuracy on the edge, reducing bandwidth consumption
- Anonymous tap/insert credit card and GMA payment enabled via 365's Pico device
- Easier access via the front panel to all serviceable components for faster and easier machine maintenance

Make the smart choice.

Implement the new Stockwell 2.0 at your locations today!
